PROFESSIONAL SUMMARY

Full Stack Engineer with 3+ years of experience building scalable web applications, RESTful APIs, and e-service platforms. Strong background in Node.js, NestJS, React.js, Next.js, and PostgreSQL. Experienced in CI/CD pipelines using GitHub Actions, deployment with Nginx on Ubuntu, and integrating payment gateways and digital service platforms. Proficient in leveraging AI tools to accelerate development, improve code quality, and drive innovation. Adept at leading technical delivery, collaborating cross-functionally, and aligning software solutions with business goals.

EDUCATION

University of Khartoum Khartoum, Sudan
Bachelor's in Information Technology

EXPERIENCE

Full Stack Developer Nov. 2025 – Present
Qast *Remote*

- Developed backend and frontend services using NestJS, Express.js, Next.js, and Tailwind CSS.
- Integrated AI-assisted development workflows (GitHub Copilot, LLM-based tooling) to accelerate feature delivery, improve code reviews, and reduce bug rates.
- Designed and maintained RESTful APIs consumed by web clients.
- Collaborated with developers and designers in an Agile team environment.

Backend / DevOps Engineer Dec. 2023 – Aug. 2025
Bunyan *Riyadh, Saudi Arabia (Remote)*

- Led backend development of a project management and e-commerce platform.
- Designed and maintained scalable RESTful APIs using Node.js, Express, and PostgreSQL.
- Built and managed CI/CD pipelines using GitHub Actions for automated builds and deployments.
- Configured and maintained Ubuntu production servers with Nginx as web server and reverse proxy.

Full Stack Engineer Jul. 2022 – Jul. 2023
Lux Rent *Riyadh, Saudi Arabia (Remote)*

- Maintained and improved a car rental platform using Node.js, SQL, Vue.js, and EJS.
- Integrated a secure payment gateway ensuring PCI-compliant, smooth transactions.
- Enhanced admin dashboard features for rentals, shopping carts, and order management.
- Optimized EJS templates and SQL queries, improving page load times and system reliability.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL, HTML, CSS

Frameworks & Libraries: Express.js, NestJS, React.js, Next.js, Tailwind CSS

Databases & Caching: PostgreSQL, MySQL, MongoDB, Redis, Sequelize

DevOps & Tools: Git, Docker, GitHub Actions (CI/CD), Nginx, Ubuntu, Jira

API & Integration: RESTful APIs, Payment Gateway Integration

AI-Assisted Development: GitHub Copilot, LLM-based code generation & review tools

Concepts: Agile/Scrum, Database Design, Performance Optimization, Security Best Practices
